Beefree SDK

Embeddable editor for SaaS applications

- A completely customizable editor
- Easy «Make vs Buy» pitch: companies save money and time by embedding Beefree vs. building their own drag-n-drop editor
- Clear advantages:

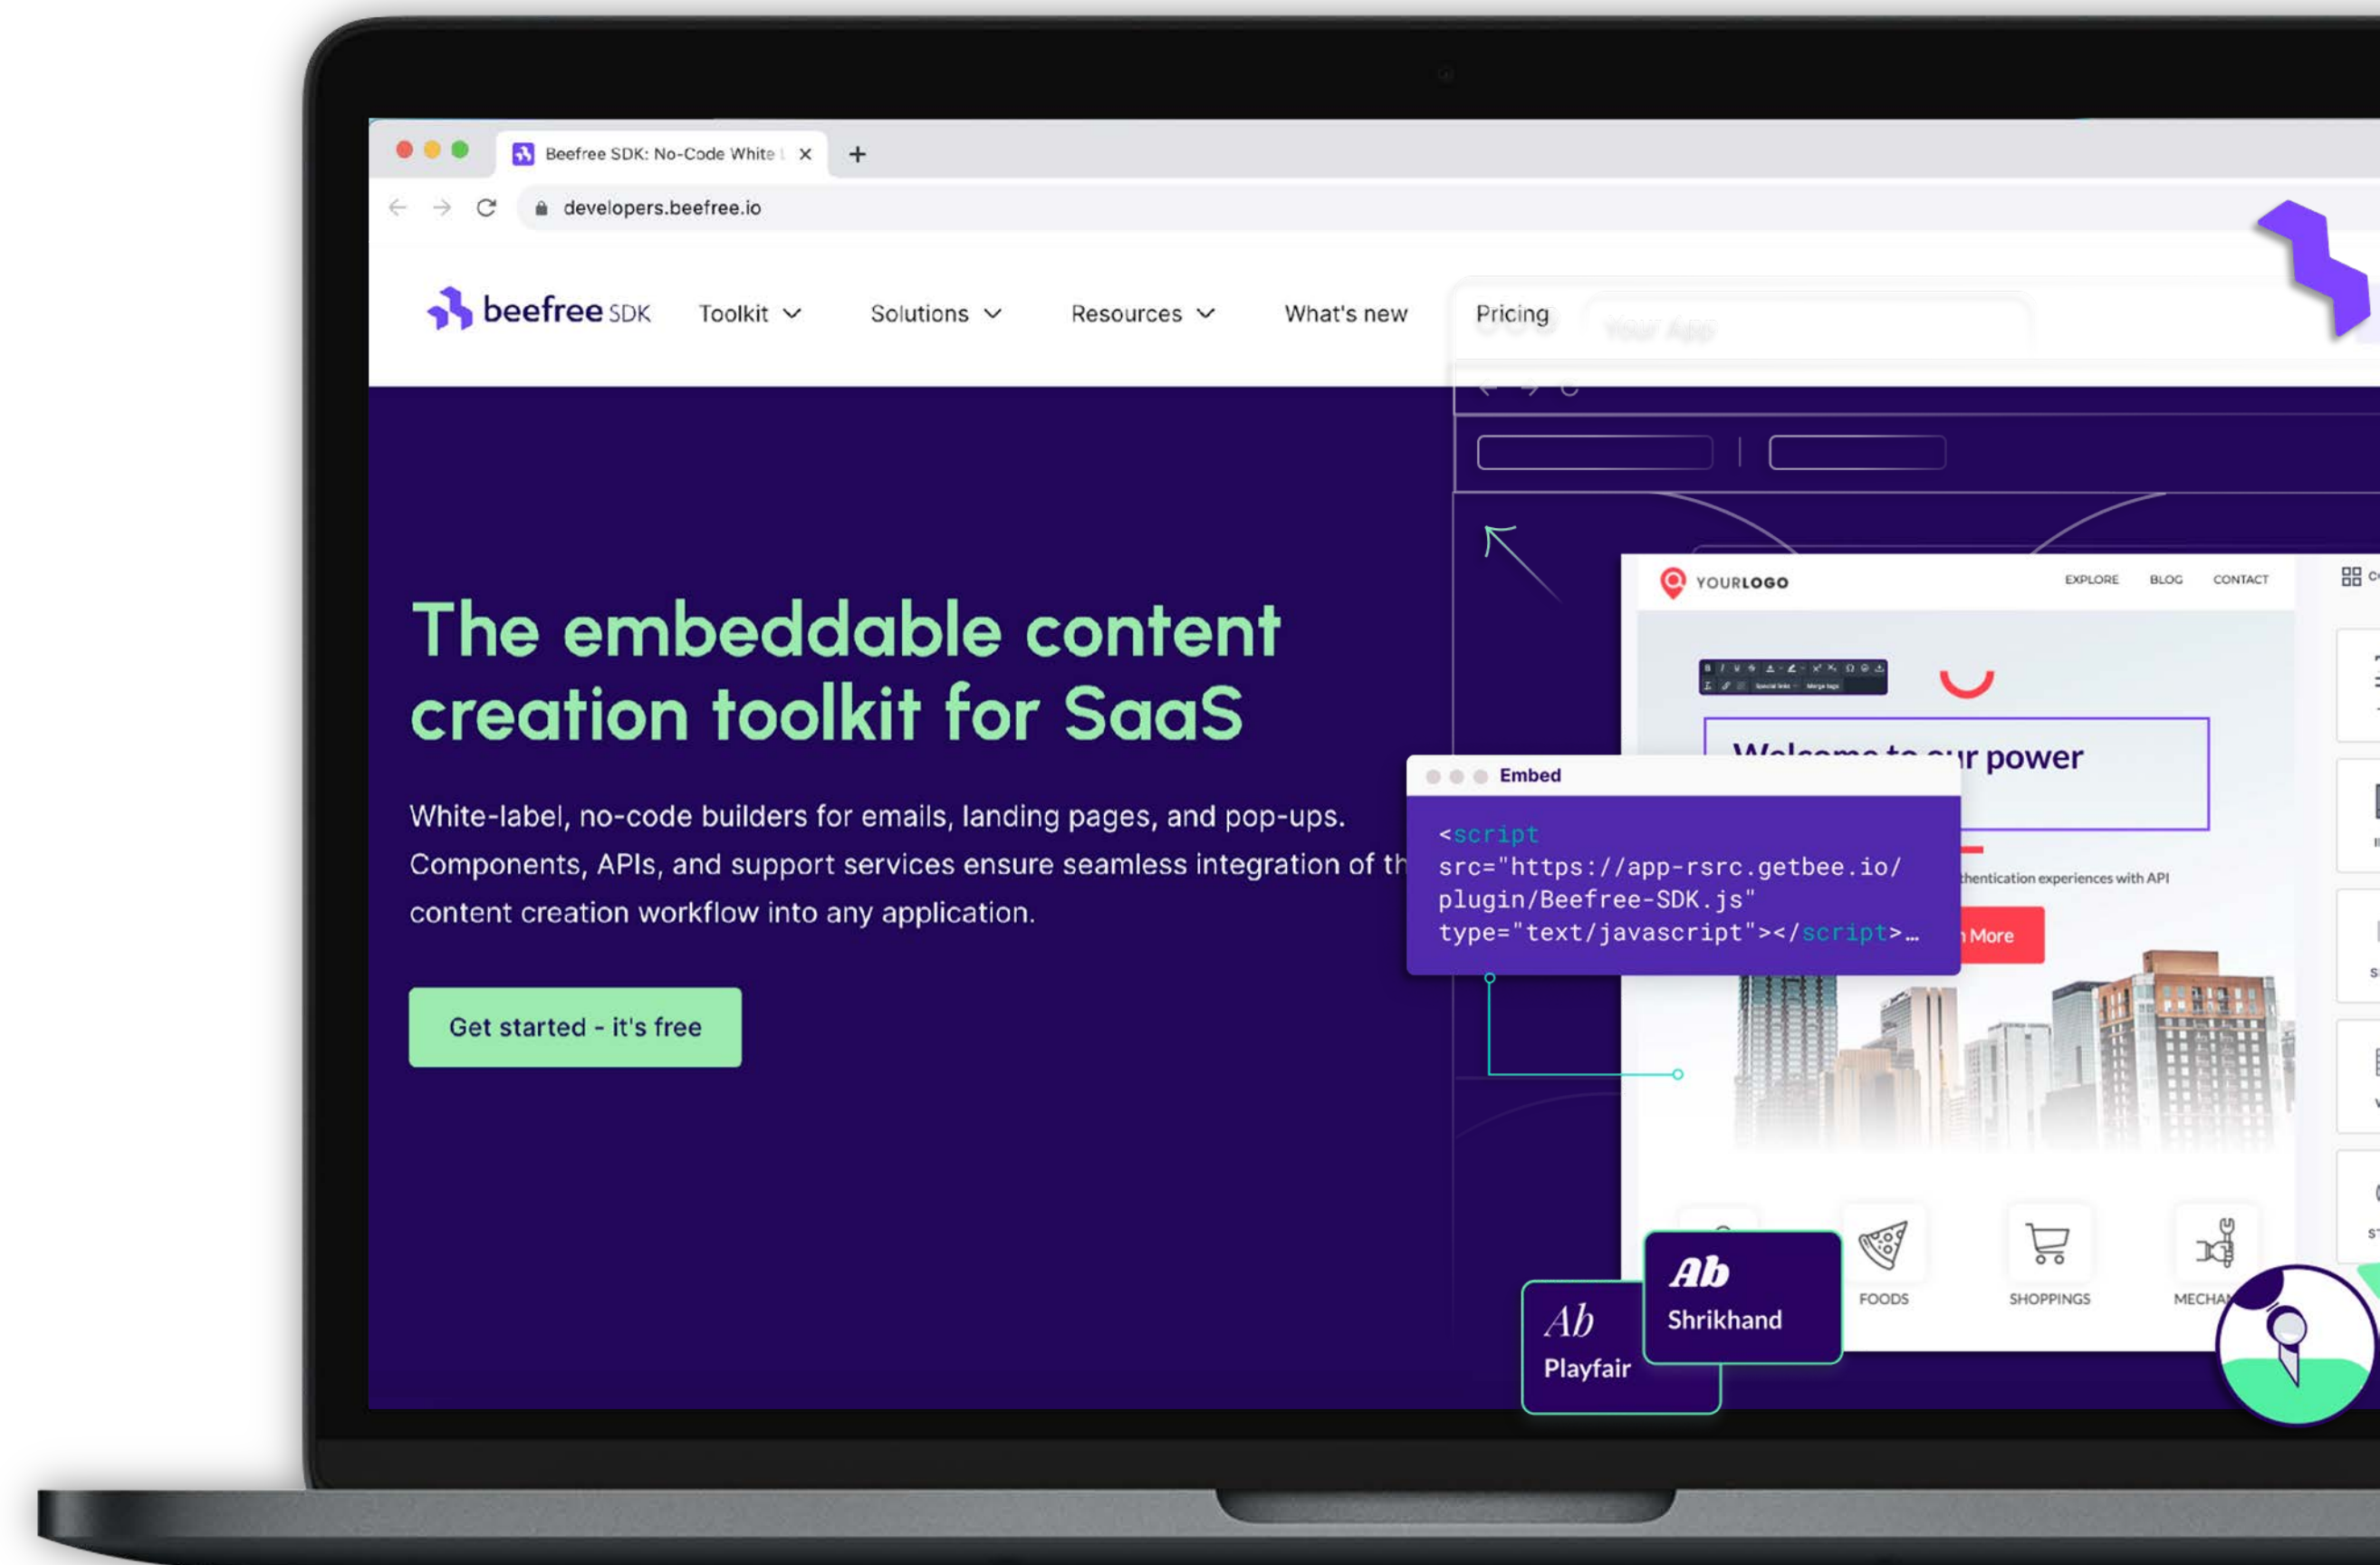

Fast deployment (<30 days) and easy integration

Low maintenance costs

Reliable technology that scales automatically

Fully customizable and seamlessly embeddable

Hosted on AWS, 99.5% uptime, ISO 27001 and SOC2 certified for added reliability and security

Beefree SDK

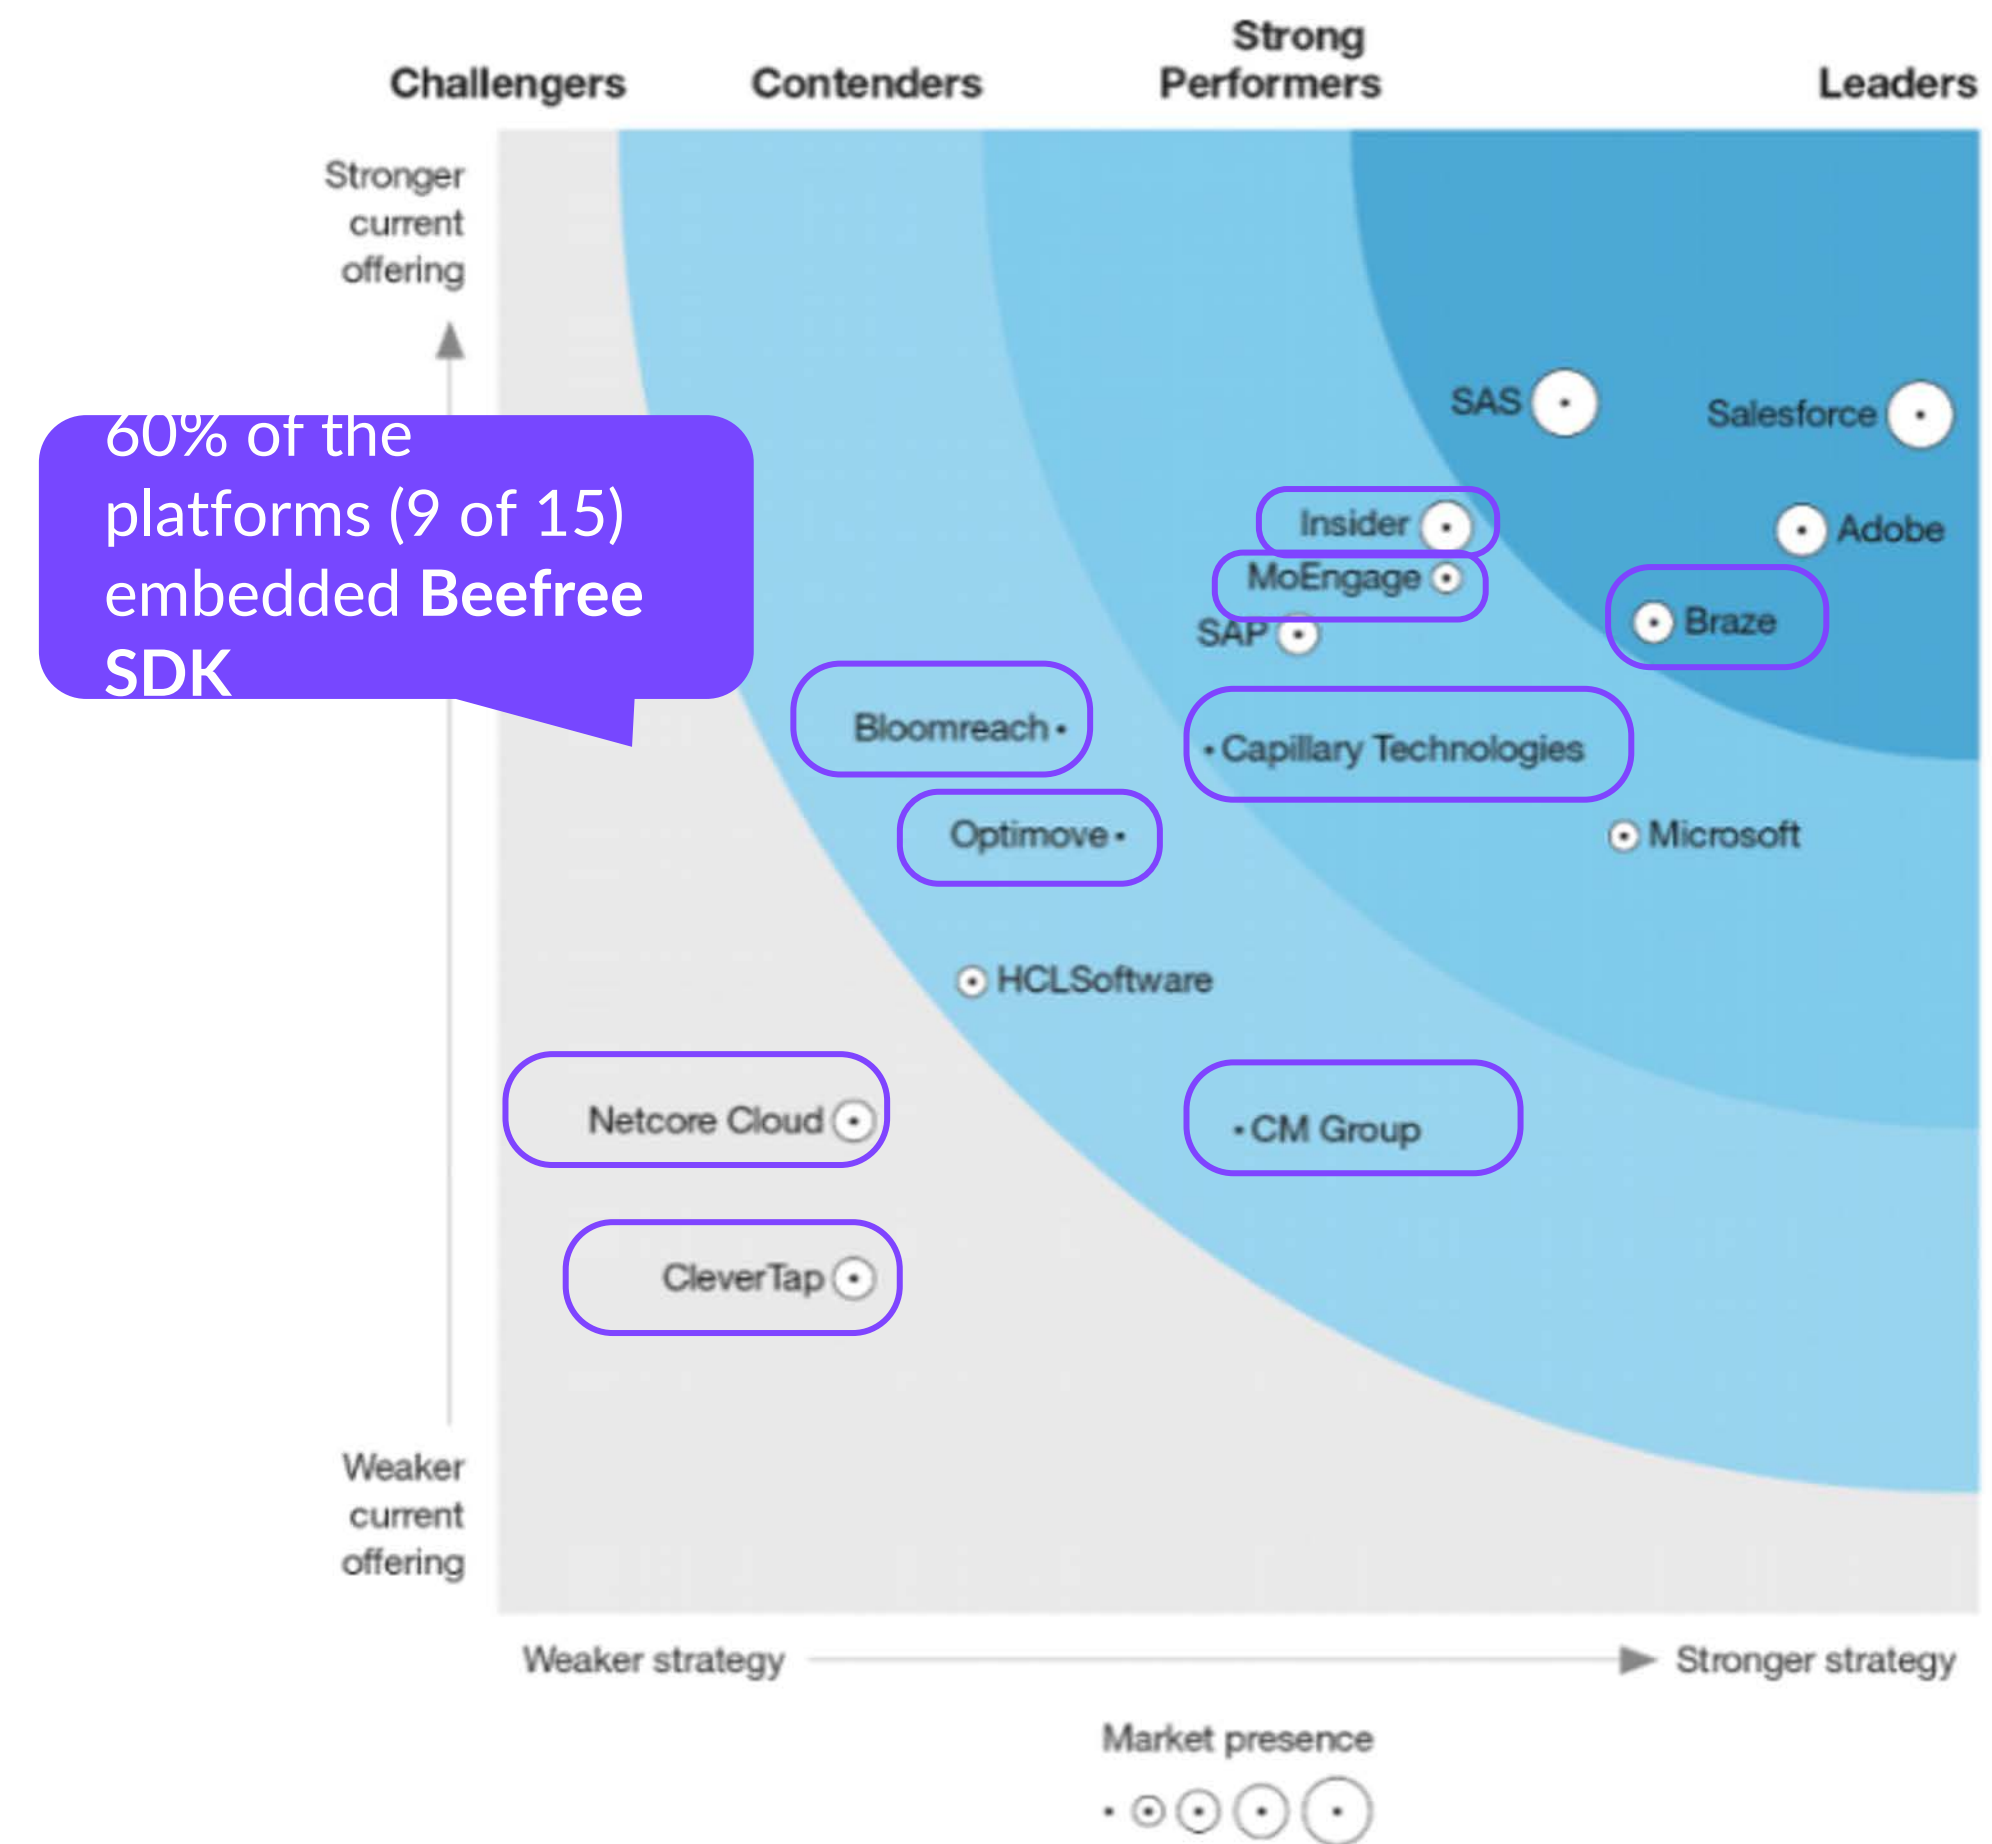

Becoming a standard tool for SAAS

Beefree SDK is used by 1,000+ SaaS applications, with clear market leadership.

Beefree SDK is embedded by:

- **60%** (9 out of 15) of the Cross-Channel Marketing Hubs (Q1 2023 Forrester Wave for Email Marketing Hubs)
- **46%** (6 of 13) of the Email Marketing Service Providers (Q1 2022 Forrester Wave for Email Marketing Service Providers)
- **41%** (7 of 17 solutions) of the Gartner Magic Quadrant for Multichannel Marketing Hubs (July 2022)

Network Externalities / 1

The more users Beefree has, the more other sw parties (dynamic images, email validation, asset libraries, assisted content creation...) will find it interesting to develop connectors or add-ons to Beefree.

This will enrich more and more Beefree itself building a competitive barrier.

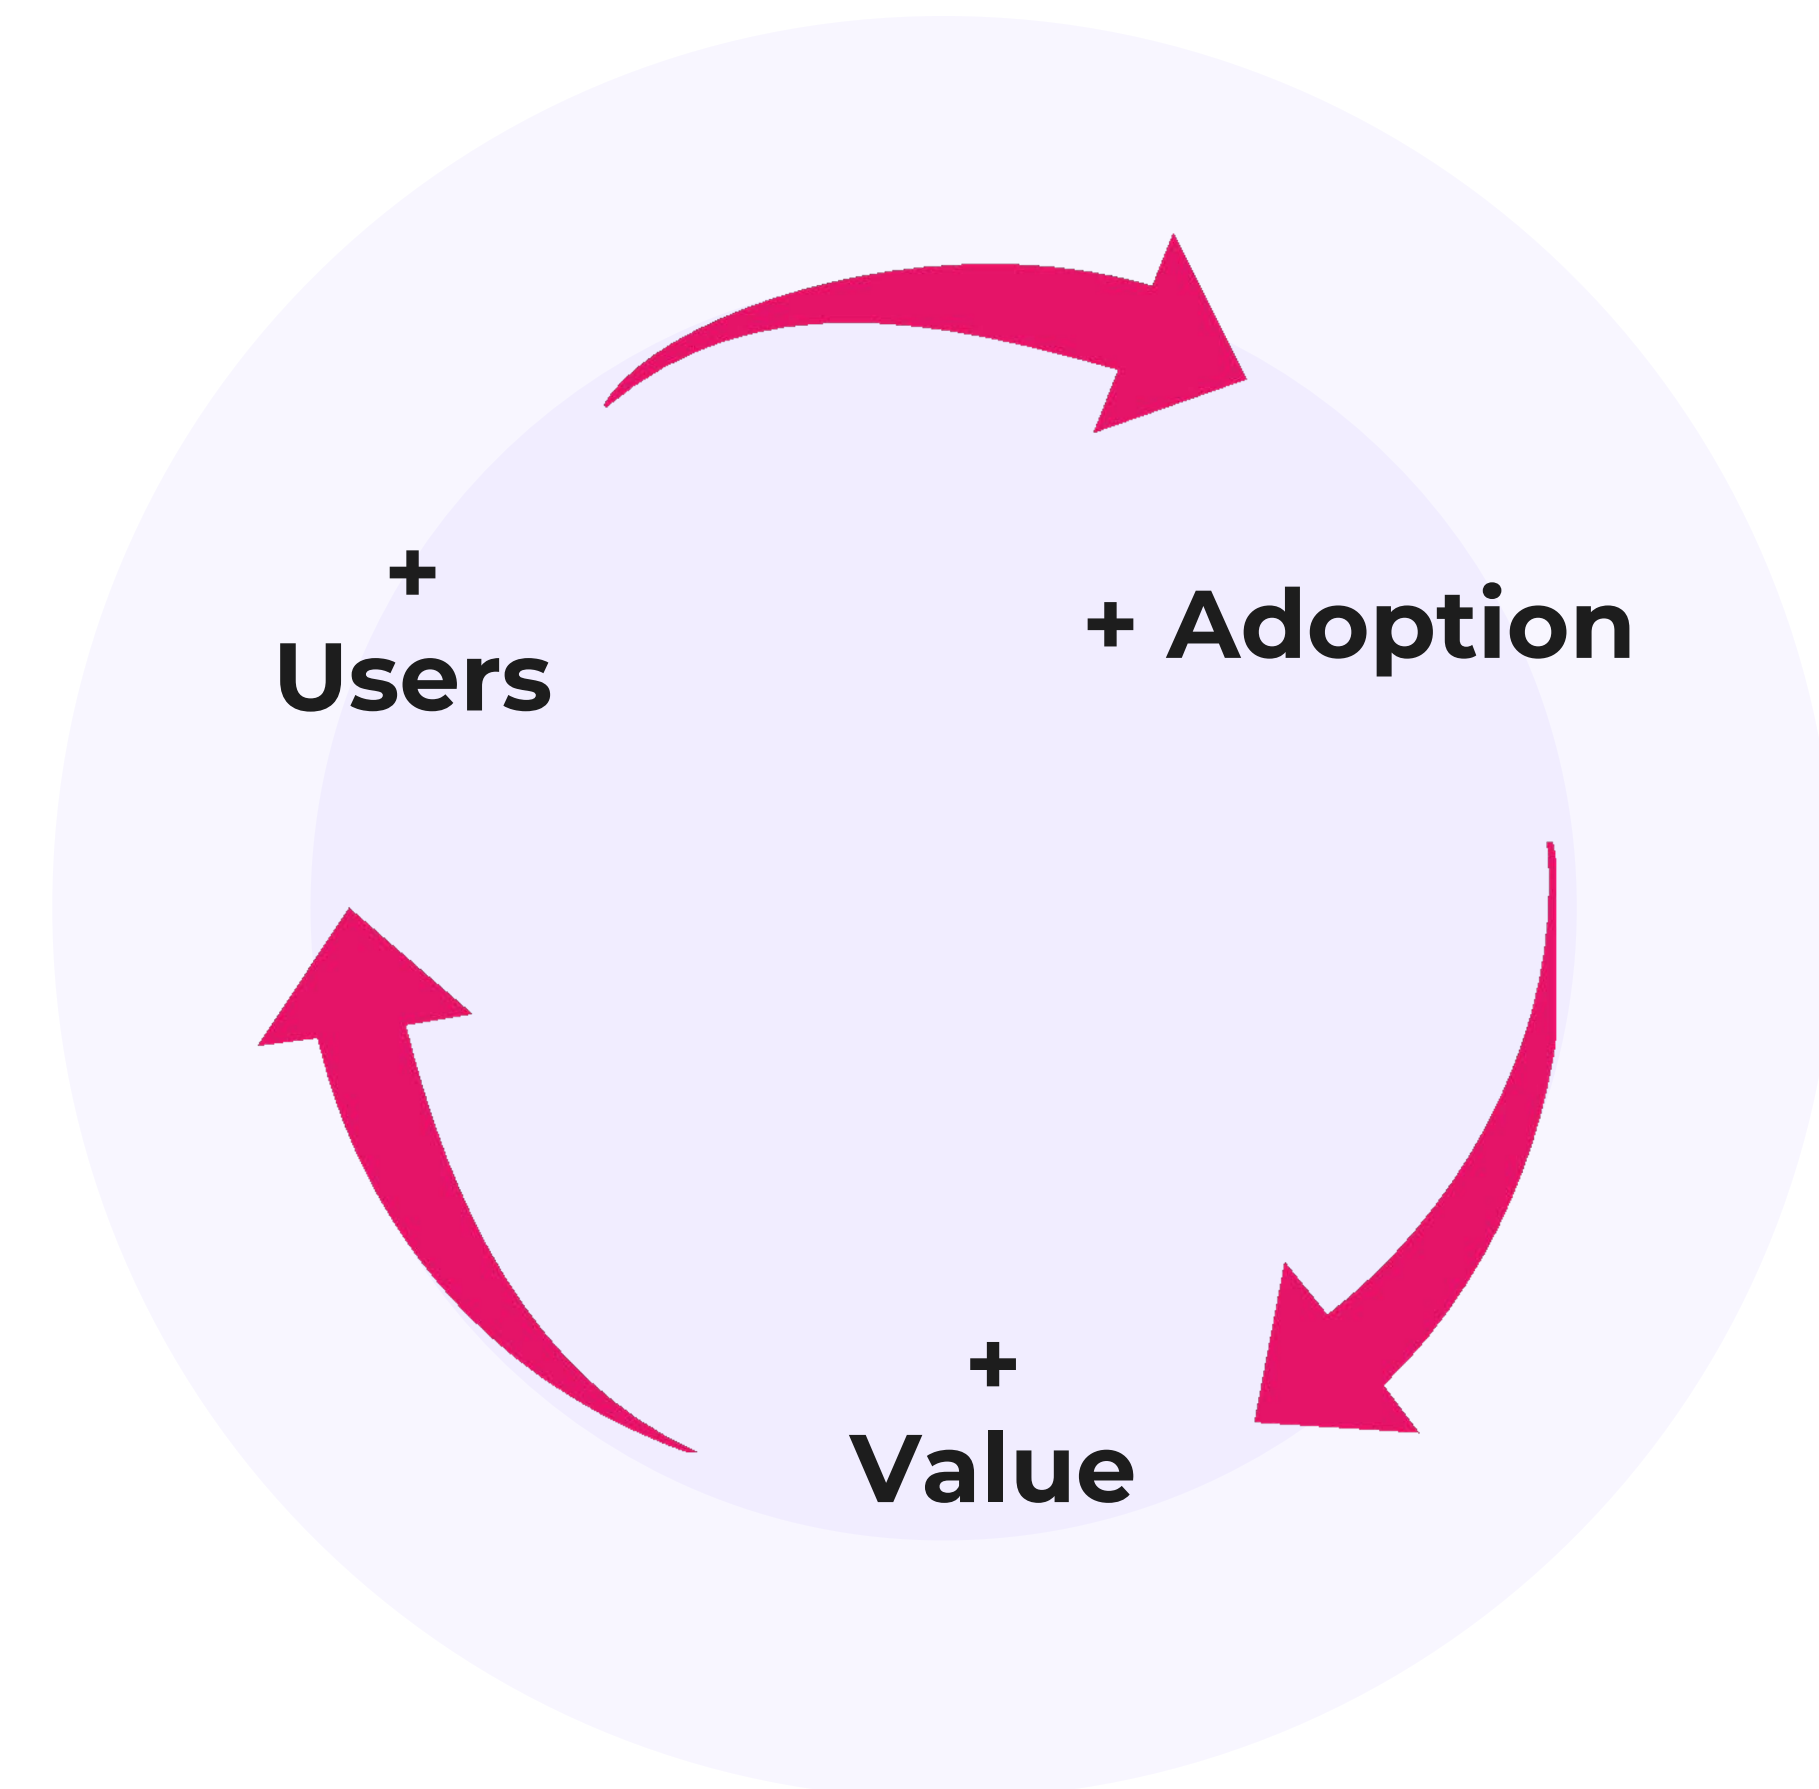

Network Externalities / 2

Higher value for users is created along with the number of users itself:

Collaboration, co-editing, approval workflows, free edition, digital library (email design system) foster the adoption and word-of-mouth

Digital assets are based on Beefree proprietary Json language that can be translated into HTML only through Beefree's APIs

Becoming the standard: Beefree was used 88m times across 1,000+ different SaaS platforms over the past year

Well on track to announce at least one M&A deal by the end of the year

The huge cash available (€ 5.1m in Q1-21) and the potential leverage allow the group to seize a few M&A opportunities; management confirmed that the group is currently assessing a couple of targets, with a view to integrating a large size SaaS company. In particular, Growens is looking for EU or UK companies operating in the MarTech segment and offering software solutions complementary to MailUp, in order to enlarge the group's product portfolio as well as its market share. The targets should have a turnover between € 5m and € 15m and good cash flow generation. Management is confident to close at least one deal by the end of the year. Furthermore, after this round of acquisitions, the group is likely to start planning the updating on the MTA*STAR segment or any other foreign stock market in 2022 concurrently with a sizeable rights issue to fund a second round of M&A.

In Q1-21 sales grew by 4.8% YoY, EBITDA totalled € 1.4m vs € 0.5m in Q1-20

Q1-21 showed growing revenues and a massive improvement in margins thanks to several optimisation and cost saving strategies. Revenues grew by 4.8% YoY to € 16.6m, despite Q1-21 was to a certain extent a period of full lockdown, whilst Q1-20 was only partially affected by Covid-19. EBITDA totalled € 1.4m, 8.3% margin (vs € 0.5m, 3.6% margin in Q1-20). The strong improvement in margins was mainly related to the massive increase in gross profit, which soared by 25.7% YoY, more than proportionally to revenues thanks to several optimisation and cost saving measures. On the other hand, the group did not suspend or postpone any planned strategic projects, mainly related to R&D. Growens's reported revenues and EBITDA in Q1-21 represented 22.2% and 23.0% of our FY-21 top line and EBITDA estimates respectively, thus corroborating our 2021 projections. Just by way of comparison, in 2020 Q1 revenues and EBITDA accounted for 24.3% and 10.7% of FY figures respectively, while in 2019 they accounted for 22.0% and 10.1%.

A leading, fast-growing and global MarTech scale-up

After the first-year growth since its establishment, Growens is now aiming at continuing its expansion and consolidating its competitive positioning in the reference market, relying on 1) its widespread client portfolio, 2) the ample amount of recurring revenues (generally 1/3 of FY sales) stemming from its SaaS business model, 3) good revenue distribution by geography (foreign sales accounted for more than 50%) and 4) a solid financial structure with vast M&A firepower.

Strengthening the operating structure in 2021 to support medium-term growth

In 2021, the group will continue to strengthen its operating structure, hiring senior staff members in order to take advantage of the recovery in the demand for marketing activities in the medium-term. According to our figures, Growens is projected to grow at a CAGR₂₀₂₁₋₂₀₂₃ of 12.8%, 22.1% and 85.3% in terms of revenues, EBITDA and EPS respectively. We reiterate our Buy recommendation on the stock, PT confirmed.

Glossary

ARPA - Average Revenue per Account, generally measured on a monthly or annual basis

ARR - Annual Recurring Revenue, a measure of predictable subscription-based revenue stream

CAC - Cost to Acquire a new Client, equal to the total sales and marketing expense divided by the number of new clients

CPAAS - Communications Platform as a Service is a cloud-based, programmable multichannel communications platform that lets you add messaging features to your existing business software using APIs

CDP - Customer Data Platform, a marketer-managed system that creates persistent, unified, customer database that is accessible to other systems

LTV - Life Time Value, an estimation of the aggregate gross margin contribution of the average customer over the life of the customer

MRR - Monthly Recurring Revenue, a measure of predictable subscription-based revenue stream

NET RETENTION (%) - How much revenue growth or churn the company had over time from the existing pool of customers. Takes into account expansion (upgrades), contraction (downgrades), and churn

NPS - Net Promoter Score, a method of using a single survey to gauge customer satisfaction. Range is from -100 to +100. Average for SaaS is 31

Payback Period - the average time (in months) it takes for the revenues from a new client to cover the cost of acquisition (sales and marketing) and the cost of service provision (COGS)

RECURRING REVENUE - The portion of a company's revenue that is expected to continue in the future. Unlike one-off sales, these revenues are predictable, stable and can be counted on to occur at regular intervals going forward with a relatively high degree of certainty. In SaaS they are referred to the annual or monthly subscriptions

SAAS - Software-as-a-service uses cloud computing to provide users with access to a program via the internet
